RHS FLOWER SHOW TATTON PARK 2017

Wednesday 19 – Sunday 23 July

BUS STOP BOULEVARD

Supported by Transport for Greater Manchester
FACTSHEET

Design

We're looking for unusual, clever and eye catching designs that give a healthy dash of green inspiration, colour and fun. We want it to inspire others to get growing, celebrate local community, culture and people.

Open to communities, businesses, designers, groups based in Greater Manchester. Transport for Greater Manchester and the RHS will look to relocate some of the winning planting in the local area so they can continue to benefit communities.

Funding

Each successful design will receive a **£500** grant towards their shelter.

The Bus Stop

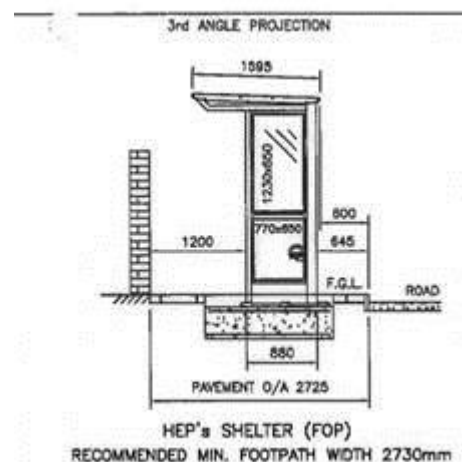

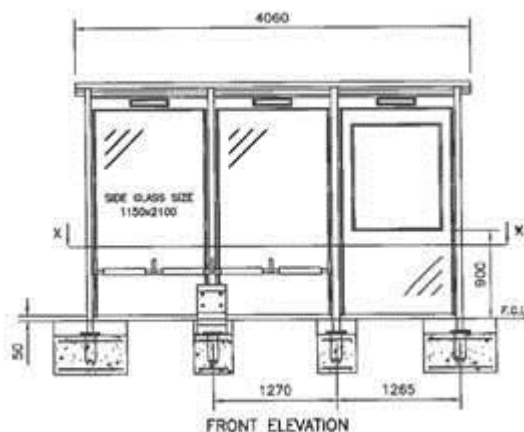

Each successful design chosen will be given a bus stop at the Show to decorate as part of the Bus Stop Boulevard.

Two shelter sizes:

The 3 bay shelters are 4m long with 0.88m side panels (4m by 1.5m roof)

OR

The 2 bay will be are around 2.6m long with 0.88m side panels (2.6m by 1.5m roof)

All bus stops should have some link to growing, gardening and lifestyle. Each bus shelter should be finished to a professional standard and will be viewed from all sides so consideration should be made about the 360 bus shelter views. The inside and outside of the bus shelter should be designed.

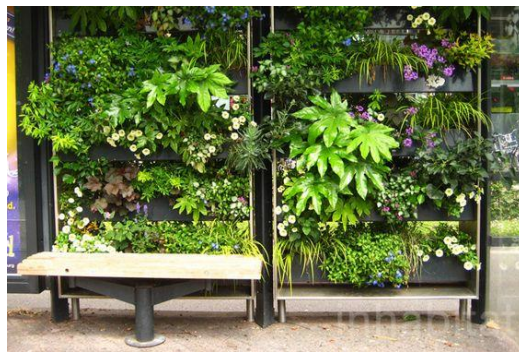

Do's and Don'ts

Real bus shelters will be used to create the 'Bus Stop Boulevard', therefore there are a few do's and don'ts to make sure they can be re-homed in communities afterwards.

- No drilling
- Do not place anything heavy on the roof that could cause damage
- Any additional attachments need to be easily removed with no damage left behind
- Temporary fixings only
- All shelters should be left as found when they are dismantled
