

Trial of *Heuchera* 1999-2001 (An Invited RHS Plant Trial)

The objectives of the trial were:

- To assess and judge for garden worthiness (Award of Garden Merit).
- To determine correct nomenclature.
- To produce a permanent record through herbarium specimens, photographs and written descriptions which will be held in the RHS Herbarium at Wisley.
- To highlight and demonstrate the wide range of habit, flower and foliage colour of this group of plants.

Three plants of each entry were planted in April 1999 on a site which had been rotovated and a general fertiliser applied at 56g/m². There were 202 entries in the trial submitted by; nurseries in the UK, Belgium, the Netherlands and the USA (in particular Terra Nova); the gardens of Kew and Trompenburg and individuals.

These entries were assessed by the Floral Trials Subcommittee over all seasons in 1999, 2000 and 2001 based on the following criteria:

- habit
- vigour
- colour of foliage
- colour of flower
- length of flowering season
- winter interest

Records were made of; flowering dates : height : spread : hardiness.

The Floral Trials Subcommittee assessed the trial over three years and recommended the following entries for the
