

WISLEY TRIALS, 1991

*Proof checked
May '93*

LUPIN, FROM SEED

Forty stocks of Lupin, from seed, were received for trial at Wisley in 1991. The trial was sown under glass on 17 July 1990 and the resulting seedlings were pricked out into vaka pak 12's as growth progressed. The plants were planted out during September 1990, in rows 38 cm apart each way. Nine plants of each self-coloured stock and eighteen plants of each mixed-coloured stock were grown. The trial was inspected by a sub-committee of Floral Committee 'A' on 13, 25 June 1991 and on its recommendation Council has made the following awards to lupin, from seed, after trial at Wisley.

The number in brackets was that under which it was grown in the trial.

The Pages AM 25 June 1991 (Sent by K Sahin, Zaden BV, Gerard Doustraat 3, Postbus 227, 2400 AE Alphen aan den Rijn, Holland.) Standards dark red (59A); wings strong purplish red (54A). Flowering from 28 May 1991. [29]

The following stocks were **Highly Commended**. The senders' names are given in parentheses.
